- School spirit is something that must be caught by the enthusiasm of each student. Along with eagerness must go pride for its athletic successes and failures, its organizations, and the individual student. The words in the Alma Mater, "Where e'er we go thy loyal praise we hear," express so vividly the challenge that comforts the entire student body. It is up to each individual, who is a member of this great organization, to accept the challenge •

• Homecoming, the first big event of the school year has an air of excitement and anticipation about it as the queen and her court are chosen. After weeks of waiting and wondering Miss Sandy Mageras was announced as our 1963 homecoming queen. Her court included Penny Harris and Cathy Simpson, Senior Attendants; Martha Williams, Junior Attendant; and Patty Smith, Sophomore Attendant •

• The 1963 football season was a record breaking one. History was made as the Eagles earned their first share in the league championship. Enthusiastic spirit and determination blazed the trail to a 6 game winning streak. This year's squad can boast a 7-3 record. Five members of the team—Barry Black, Dave Tinkler, Jeff Phillips, Phil Grimpe, and Terry Weida—were named to all-county or all-league teams •

Glenwood	6	Louisville	28
Glenwood	22	Timken	8

• The extra-curricular activities are numerous and are fashioned in such a way as to permit each student to take an active part in some group. From the impressive tapping ceremony of the National Honor Society to the hectic slave auction of the Latin Banquet each club plays an active part in the program of the school •

oklahoma

• The Seniors are the pace-setters, the go-getters, the organizers, and the leaders. They are looked up to by the underclassmen. Many are on their way to college and others prefer to establish positions in their community. Whatever may be the goal, Seniors wake up to the realization that they will soon be on their own •

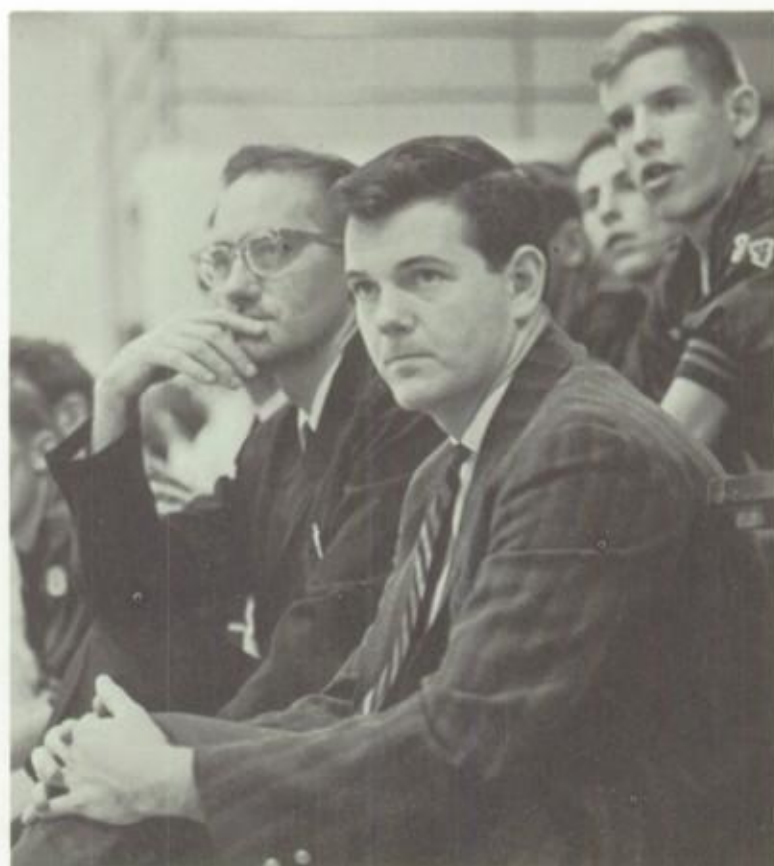

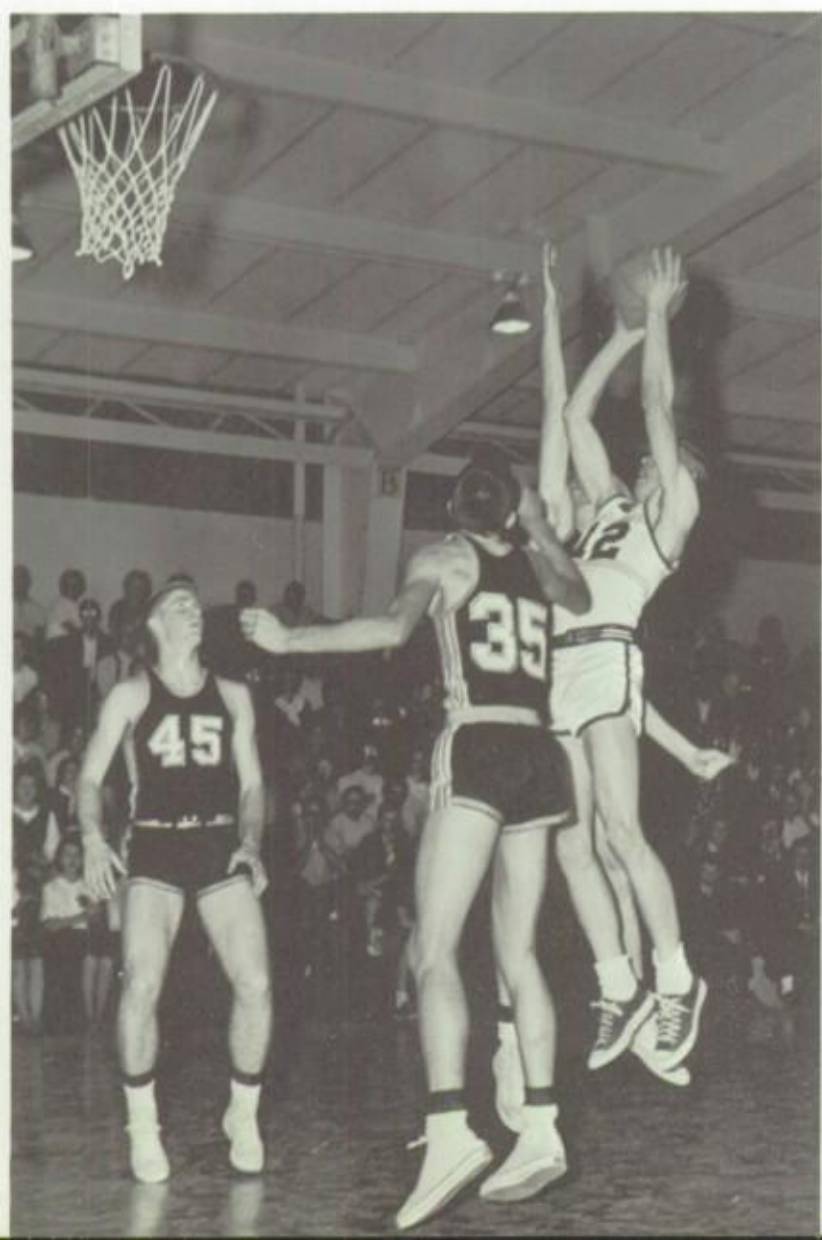

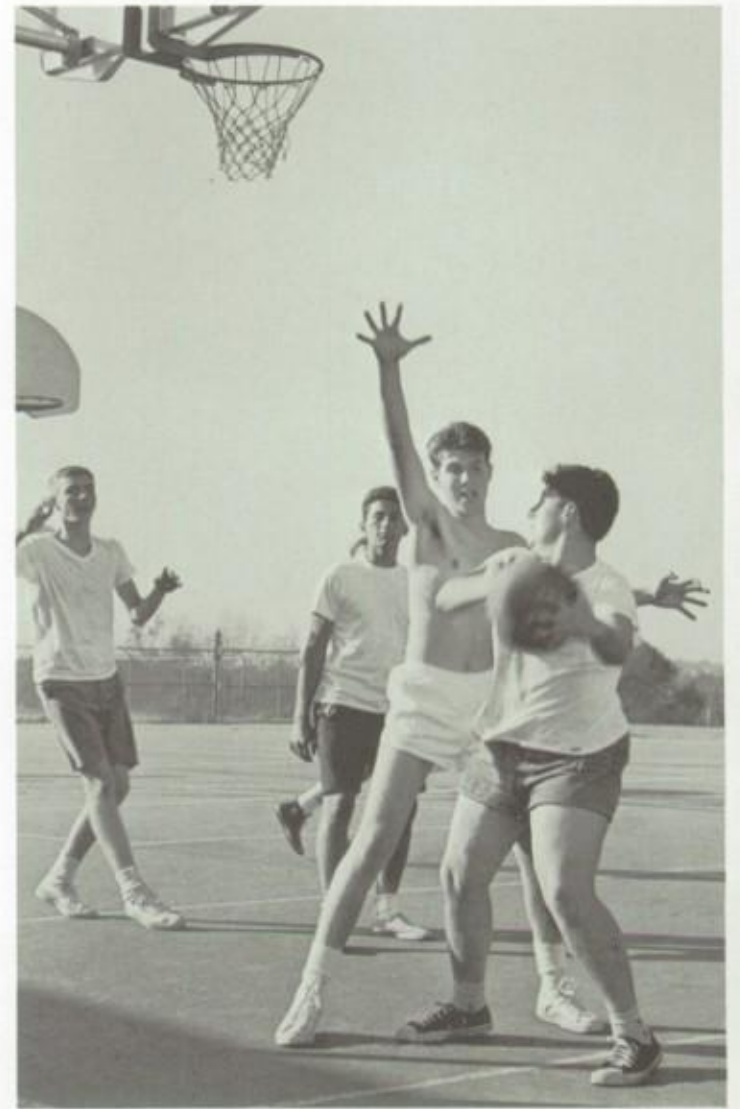

• Basketball provided the Glenwood fans with many exciting games. The season record of 9-9 does not show the actual team effort. We entered the tournament against Orrville winning 65-55 and then went against Canton South in the most thrilling game of the season losing to them 41-40 •

• Unfamiliar faces are seen as a new class arrives at Glenwood. Confused, bewildered, and uncertain, the underclassmen move ahead to exciting experiences and challenges in their high school careers.

The Juniors continue to carry on the spirit and tradition of Glenwood •

• The doors burst open as the ravenous Glenwoodites swarm into the cafeteria. Eat and run is the trend with the shortened lunch periods. But the same familiar sights are there as students take time to ease their appetites and relax •

GLENWOOD
HIGH
SCHOOL

• As the school grows in years; the student body grows in number. The increased enrollment has made a split session a necessity at Glenwood. To avoid a complete separation of the student body, the administration devised a plan whereby the morning and afternoon sessions overlap •

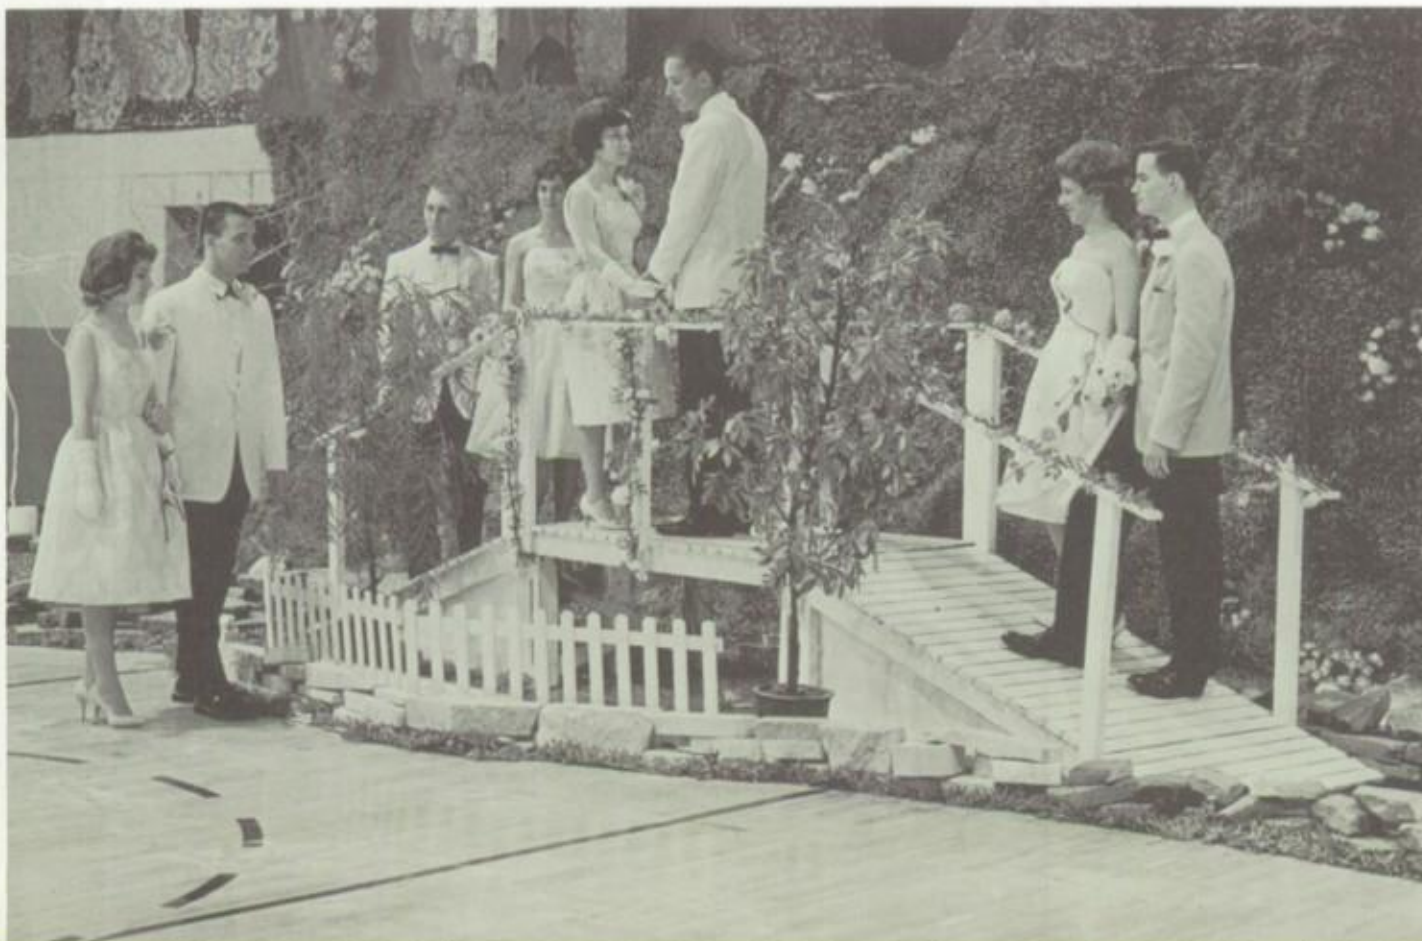

prom 1963

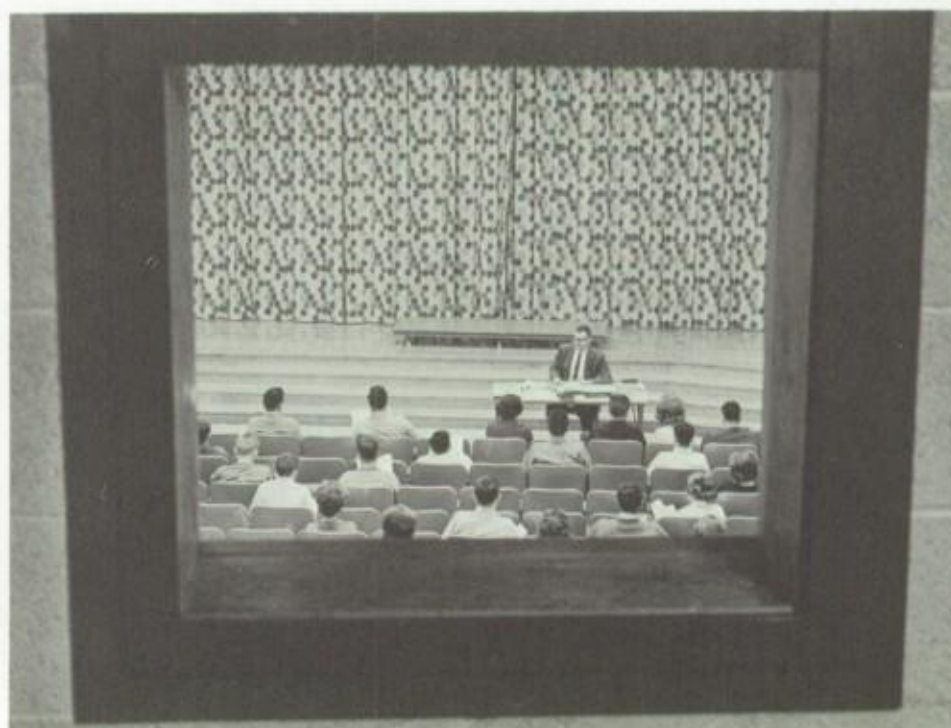

• "Fantasia" provided the background for the highlight of the year—the Junior-Senior Prom. It was a new and exciting experience for the Juniors as they spent many endless hours in preparation. For the Seniors it proved to be the perfect ending to a perfect year •

• The Faculty offers the help and guidance so important in our high school years. Lessons learned from them come not only from books but from life. The influence of a respected teacher will be carried throughout adult life •

BOARD of education

• On behalf of the students, faculty, and parents of the Plain Local School District we wish to express our appreciation to Ransom H. Barr. Mr. Barr retired in January of this year upon completion of 26 years of service on our school board •

in memoriam

With sorrow, these thoughts are dedicated to the memory of Eddy Kreger. He was ever ready to be a friend to all; his sportsmanlike attitude and his rare gift for friendship endeared him to everybody. The student body enjoyed his friendship and shall always treasure the many thoughts of him as a joyous spirit whose brief sojourn here enriched those who knew and respected him.

technologies for better, safer living

West Germany: A Bliss arresting gear "catches" a landing U.S. A. F. jet fighter on the runway after a brake failure.

Memphis: Antiquated fire alarms are replaced by a modern, more extensive Bliss-Gamewell coded alarm system.

Cape Canaveral: Bliss-built nozzles and engine parts help guide a Minuteman missile 5,000 miles down range.

India: Vitally-needed aluminum strip comes whirling off a new Bliss cold mill near Calcutta.

Tampa: Revolutionary Bliss-Eagle traffic control system uses an electronic brain to synchronize traffic flow.

Brazil: Auto body sections are stamped out on huge Bliss mechanical presses at a plant in São Paulo.

Chicago: A Bliss Mackintosh-Hemphill roll is readied for service in a rolling mill at a giant steel plant.

Even as these events are taking place, others are in the making. Bliss breaks ground for a new press-building plant for Israel... ships a complete can-making machinery line to a big food packer... announces a new plant in Canada to manufacture precision timers and other products... negotiates a contract for prototype production of parts for an advanced rocket system. Everywhere in this growing, changing world, you'll find Bliss... growing and changing with it. Write for our 20-page booklet of Bliss activities.

HIGH SCHOOL: A 70-dollar-a-day job

If you have a friend who is thinking of dropping out of high school, ask him this question: "Would you continue if you were paid \$70 a day until graduation?"

Statistics show that the average high school graduate earns \$50,000 more during his life than the average eighth grade graduate. It breaks down to this: Four years of high school equals 720 days. Each day spent earning a diploma is worth \$70. And that doesn't include additional income from summer employment.

What's more, jobs traditionally open to non-graduates are rapidly disappearing. The unemployment rate among non-graduates is 2½ times that of the average high school graduate.

The tragedy of it all is pointed out by the United States Chamber of Commerce. It reports that the number of openings for skilled jobs in the U. S. almost equals the number of unskilled, unemployed persons.

This nation's industry and business need trained people by the thousands. What's wrong with getting that training in high school at a rate of \$70 a day (in future income)?
